Visit summary

Harbor Lantern Urgent Care | Visit record

Patient	Alex Morgan
Visit reference	HL-2026-1103-042
Date of service	November 3, 2026
Reported event	Chemical splash at work, left forearm
Health member ID	LH-4829107

Recorded history

Patient reported a splash of cleaning solution while working at Cedar Quay Pharmaceutical Research and immediate rinsing at the workplace safety station. Product name and concentration were not available at the visit.

Visit record

Localized redness and tenderness on the left forearm were documented. The recorded assessment was a superficial chemical skin injury. The visit record lists wound evaluation, cleansing, and a protective dressing. This fixture contains no treatment instructions or clinician signature.

Billing reference

Total submitted charges: $1,260.00. The personal health plan was supplied at registration. No employer claim reference or workplace-injury payer was recorded. Payment allocation remains unresolved.

Supporting information needed

Employer incident report, chemical safety data sheet, and claims administrator details have not been added to the visit record. This summary reports the visit record; it does not determine insurance coverage.
